ANTIBODY GUARANTEE

From Actin to Zebrafish

Evaluate our antibody products with complete peace of mind

We offer high-quality antibodies supported by exemplary scientific support. We want to empower researchers to explore further using antibodies with no risk. Our antibodies' performances are supported by our **Guaranteed Performance policy**.

If the antibody does not perform in applications and sample type(s) as described in our documentation (including product listings on our websites, catalogs, or data sheets), we will issue a full credit or replacement antibody.

How It Works:

1. Place your antibody order online or contact your local Merck representative.
2. Following your evaluation, if you are not completely satisfied with the performance of the antibody, complete our Antibody Guarantee Form online.
3. Our technical service team will contact you within 24-48 hours to review the details of your experiment and complete your claim.*

*Experimental results must be submitted via the Antibody Guarantee Form within 12 months of the date of purchase. All required fields of the Antibody Guarantee Form must be completed. Refunds and replacements contingent to claim review by technical service team. Credit covers the cost of antibody. Product replacements depend on product availability. Antibodies purchased in bulk order or for resale purposes are expressly excluded from this Guarantee. This Guarantee is non-transferable and void upon resale of antibody.
